Creo 5.0 - University Student Edition - Relicense Guide

1. Temporarily disable all firewall, anti-virus and anti-spyware applications.

2. **Option 1:** Start Creo 5.0 reconfigure utility:
   - Using Windows Explorer, browse to `C:\Program Files\PTC\Creo 5.0\5-###\Parametric\bin` where `###` represents the build code of Creo you downloaded. The actual number will vary as additional Creo builds are released.
   - Run `reconfigure.exe`.
     - Right-click `reconfigure.exe` and select **Run as administrator** from the pop-up menu.

   If you don't find `reconfigure.exe` in the specified folder, you will need the installation DVD image `MED-100WIN-CD-420_5-###_Win64.zip` that can be downloaded from [here](#). **In this case you will run setup.exe after unzipping the folder.**

2. From the PTC Installation Assistant dialog box:
   - Select **Reconfigure Existing software** and click **Next**.
   - In the **Simple License Entry** product code field, enter the product code `BK500806ED0790-Y3M9-4RW5` and then click **Install Licensing**.
     - Enter your PTC username (your email address) and password.
     - Click **Login**.
   - When you see the **Success!** message, click **Next**.
   - After the reconfigure is complete, click **Finish**.

You are now ready to use Creo 5.0 - Student Edition
